

## mySAP® Product Lifecycle Management (mySAP PLM) Integration for OneSpace Designer

The mySAP PLM® Integration for OneSpace Designer provides a supported communication infrastructure to allow OneSpace Designer to integrate into SAP®'s product lifecycle management system, mySAP PLM. With this integration, OneSpace Designer can exchange engineering data back and forth with existing mySAP PLM environments.

### Product Features

#### Management of OneSpace Designer Modeling Data in mySAP PLM

- OneSpace Designer 3D models
- OneSpace Designer 2D Annotation drawings
- Additional viewing formats (including VRML, PDF, JPG)
- 3D model structure as mySAP PLM document BOM

#### Functionality of mySAP PLM Integration for OneSpace Designer

##### Transfer design information to mySAP PLM

- Store OneSpace Designer 3D models to mySAP PLM
- Store OneSpace Designer 2D Annotation drawings to mySAP PLM
- Store 3D model structure to mySAP PLM as document BOM
- Create mySAP PLM documents and attach
  - 3D model data
  - 2D Annotation drawing data
  - additional data formats available in OneSpace Designer
- Create mySAP PLM object links
  - Links form SAP document to SAP material
  - Links between SAP documents (e.g. for 3D-2D links )

##### Transfer mySAP PLM design information

- Update mySAP PLM status at
  - OneSpace Designer 3D models
  - OneSpace Designer 2D Annotation

##### Search mySAP PLM information from within OneSpace Designer

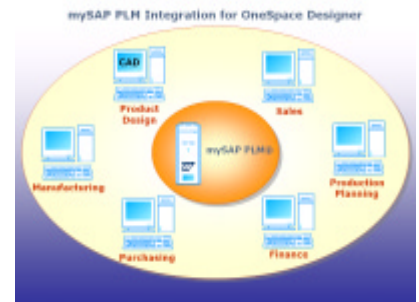

- Search mySAP PLM materials
- Search mySAP PLM documents

#### Management of Parts and Materials

- Access to mySAP PLM's material management
- Access to mySAP PLM's document management system

#### Licensing

- mySAP PLM Integration for OneSpace Designer is a named user license, one license is required for each user

#### Ordering Information

mySAP PLM® Integration for OneSpace Designer	C695
mySAP PLM® Integration for OneSpace Designer Support	C695A

#### Prerequisites

OneSpace Designer  
mySAP PLM  
Oracle run-time license

#### System Requirements

Supported environments for mySAP PLM® Integration for OneSpace Designer 2005 include:

- Windows 2000® Professional
- Windows XP® Professional
- SAP R/3® v4.6c, v4.7
- SAPgui 6.20
- OneSpace Designer 2005 (v13.0)

#### Available Languages

- English
